

BLACKMORE'S NIGHT CONJOURS UP A FALL EAST COAST TOUR

Peasants and knights, jesters and kings, gypsies and princesses dance side by side down the city streets. This isn't a scene from yesteryear...the year is 2009 - the place - a concert hall near you. This is the world of Blackmore's Night and their eclectic musical blend of folk renaissance rock music.

Ritchie Blackmore and Candice Night and their talented band of Minstrels (Earl Grey of Chimay, Gypsy Rose, Bard David of Larchmont, Squire Malcolm of Lumley and Die Geyer Albert) present a fascinating combination of soft rock music and European folk melodies often fusing instruments of the Renaissance era with those of the modern day. Ritchie has coined the term for this newly created category of music "Renaissance Rock". Much of their inspiration is their love for nature - and the pageantry and romance of the beautiful music of the Renaissance time.

Blackmore's Night and their 7 piece band weaves the mystical music of another time into their own sound with acoustic and electric guitars, strings, eclectic instruments like hurdy-gurdy and bagpipe entwined with Candice Night's ethereal voice.
